

PURPOSE OF CHILD SAFETY

All staff at St Angela of the Cross are dedicated to keeping children safe.

Staff at St Angela's focus on protecting children from harm including keeping students safe or from being unsafe.

The staff here have the job of educating children about their rights, ensuring a safe environment both in the classroom or online and making sure to prevent unsafe situations.

A child's safety is one of the most important things to teachers.

St Angela
of the Cross
PRIMARY SCHOOL

Jack & Dan

All students at St Angela of the Cross should feel safe NO MATTER WHAT.

If you don't feel safe at school tell a teacher right away, and if you're on the yard there are teachers with **yellow vests** that you can talk to if you're hurt or not feeling safe.

All staff from St Angela's will make time for you to make sure that you're ok every day!

Risk Management

The staff at our school keep us safe by:

- Protecting students in class.
- Monitoring the playground.
- Stopping unsafe behaviours.

Our school promotes physical safety, mental safety, emotional safety and cyber safety.

Luke and Cameron.

Hiring staff and staff training

Before staff are hired for a job, they must pass the following:

- a working with children's check
- a valid teaching qualification
- a check with how they were at their last school
- if they are safe and responsible
- a National Police Check

Lizzie & Kayley

I Can Be Safe At School

At our school our teachers are well trained to help all children feel safe.

We understand that kids can get mad and might make poor choices sometimes, but our teachers will approach in a kind and respectful way.

The school promotes all students to be an 'upstander' if something is not right.

Valuing differences

St Angela of the Cross values diversity.

We do not put up with any bullying.

We accept everyone and their differences even if they have:

- different learning styles
- different answers or opinions on certain things
- diverse backgrounds or cultures
- if a student has medical needs

Reporting and Responding

At any place inside or outside of school there will always be someone to talk to! If you ever feel unsafe just know there are many different people to help you with problems on or off the yard. Such as the teachers, someone on your five finger list or a trusted adult. At St Angela's we do not tolerate any sort of bullying. If people are bullying report to a teacher immediately.

Fingers

Communication and Review

Each time a new person comes to the school, they are briefed on our child safety policy at the front office. They will then be guided on a tour around the school.

Adults can also see the policy by going onto the St Angela's website.

The policy is reviewed and checked by students and teachers every year to make sure that it keeps everyone safe.
